

POCKETSMART AI • PHASE 8

Project Demonstration Phase

Demonstrating the complete PocketSmart AI user journey

PocketSmart AI: Your Smart Budget & Recommendation Assistant

Project Demonstration Phase

Demonstrating the complete PocketSmart AI user journey

1. Demonstration Objective

Demonstrate how PocketSmart AI accepts a user's budget and preferences, routes the request to the appropriate planner, generates AI-supported recommendations, and presents the results through the web interface.

2. Suggested Demonstration Flow

- Open the PocketSmart AI home page and introduce the three planner categories.
- Register or log in to show authenticated access and personalized interaction.
- Select a planner and enter the required budget/context inputs.
- Submit the request and show the recommendation results.
- Explain how Gemini processes the budget/context and how the result is organized.
- For Jewelry, optionally demonstrate image-based outfit analysis.
- Open recommendation history/dashboard features to show saved or previous interactions.

3. Home Interior Demo

Show room details, quantities, budget, and resulting product suggestions.

4. Party Planning Demo

Show event type, guest count, budget, venue details, and resulting food/venue/decoration suggestions.

5. Jewelry Demo

Show budget, occasion, style preferences, optional outfit image, and resulting matched jewelry options.

6. Supporting Screens

- Home Page
- Testimonials Page
- Register Page
- Login Page
- User Dashboard
- Home Interior Budget Planner
- Home Interior Recommendations
- Party Budget Planner
- Party Budget Recommendations
- Jewelry Budget Planner
- Jewelry Budget Recommendations
- Recommendation History

Phase Outcome

The demonstration connects the project's idea, requirements, architecture, implementation, and testing into a visible end-to-end user experience.

Source basis: supplied PocketSmart AI project guide. The reference YouTube video was provided by the user but could not be fetched in this environment, so no video-specific claims have been added.
